INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1947-48 edition of the Winston-Salem City Directory.

Confidence in the continued growth of Winston-Salem's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Winston-Salem to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Winston-Salem Directory will fulfill its mission as a source of authentic information pertaining to the city.

Six Major Departments

The six major departments are arranged in the following order:—

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 25 to 881, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Winston-Salem, and the name, official personnel, nature and address of each firm and corporation in the city.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 160, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Winston-Salem. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a large commercial and industrial center like Winston-Salem, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 1045 to 1110, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE POSTAL UNIT GUIDE, on pink paper, follows the Classified and is separately paged from 1 to 3. This section is reproduced verbatim from copy supplied by the postal authorities.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET and AVENUE GUIDE, on pink paper, follows the Postal Unit Guide and is separately paged from 5 to 123. In this section the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, follows the Directory of Householders.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Winston-Salem.

The Winston-Salem Directory Library

Through the courtesy of the publishers of the Winston-Salem City Directory, a Directory Library is maintained in the offices of the Winston-Salem Chamber of Commerce, for free reference by the general public. This is one of 600 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

HISTORY

Rich and varied is the history of Winston-Salem, for the city of today is the product of almost two centuries of constructive, planned growth.

In 1752-53 a small group of Pennsylvania Moravians, a Protestant denomination of Bohemian origin, carefully selected and bought a large tract of land in Piedmont Carolina at the three forks of the Yadkin River. They named the tract "Wachovia" after the Austrian estates of Count Nicholas Louis von Zinzendorf, an early protector-patron of the sect. Two settlements were established, Bethabara in 1754 and Bethania in 1759. In 1766 a new settlement was carefully laid out in the center of the Wachovian tract and built according to definite plans. The tranquility-loving Moravians named their new town Salem, meaning "peace."

The small town grew rapidly under the care of the industrious fathers. A water system was established and dwellings, stores and shops built. Embryonic industries included weaving, tanning, dyeing, baking, and the making of roofing tiles, ornamental tile stoves, clay smoking pipes, and candles. Tobacco was even then an important crop. The fathers consecrated a graveyard, "God's Acre," and founded a girls' school which has developed into the Salem Academy and College of today.

**Main Hall, Salem College, with Historic Home Moravian
Church (1800) in Left Foreground**

The Revolutionary War brought to the thriving town Nathanael Greene's soldiers, and in 1781 Cornwallis passed through Salem. The years after the war until the middle of the 19th Century were marked by such events as the establishment of the Nissen Wagon Co. in 1787; a visit from George Washington in 1791; the dedication of the Home Moravian Church in 1800; the first edition of Blum's Almanac in 1828; and the opening of the first bank in 1847. Cotton and wool manufacturing companies had been organized, and Salem by 1850 was a prosperous center of religion, learning and industry.

By an act of legislature in 1849, Forsyth County was created from Stokes County. The county seat was established one mile north of Salem Square. In 1851, again by act of legislature, the new county seat was named

"Winston" in honor of Major Joseph Winston, Revolutionary War hero. Salem was incorporated in 1856; Winston in 1859.

Winston developed rapidly as an industrial center and market. The year 1872 saw the first tobacco auction and the opening of the first tobacco factory. In 1885 the Chamber of Commerce of Winston and Salem was organized by far-sighted leaders who realized that together the two towns must build for the future. By the time of consolidation, Winston was already known for its textiles, hosiery, blankets, knit goods, tobacco products, and tobacco market.

In 1913, by popular vote, Winston and Salem were consolidated as Winston-Salem, the "Twin City." The new city took as its motto "Urbs Condita Adiuuando," meaning "A City Founded Upon Co-operation." This motto puts into modern phraseology the old Moravian concept of "Unitas Fratrum," "A Unity of Brethren."

Winston-Salem today is the leading industrial city of North Carolina and the third city of the South in value of manufactured products. The value of Winston-Salem's manufactured products is over six times that of

any other city in the two Carolinas. The best of the old and the best of the new blend to make a progressive city still marked by a deep religious atmosphere, a love for music and arts, and a zeal for broad educational development. As did their fathers of yesterday, far-sighted citizens of today build always for the greater city of tomorrow.

POINTS OF INTEREST In Old Salem

Moravian Brothers' House, now Moravian Church Home, located S. Main and Academy streets, is the oldest building in Salem, having been erected in 1769.

Salem Tavern, on S. Main St., erected in 1784, is a famous old inn where George Washington was entertained in 1781.

Home Moravian Church, S. Church St., erected in 1800, is the opening scene of the Easter Sunrise service of the Moravians.

The Moravian early Easter morning service, one of the most widely known religious services in America, has been held here for over 150 years, and attracts about 50,000 visitors annually.

INDUSTRY AND BUSINESS

Winston-Salem is built on a sound economic foundation. Industries, many of which were established by Winston-Salem pioneers, number over 275. Industrial and agricultural developments are inter-dependent, giving stability and balanced growth.

Industrial Development

Tobacco—Tobacco flows into Winston-Salem from the farms of the entire Piedmont area. Here it is manufactured into tobacco products which are distributed to every country in the world. Winston-Salem is the world's largest tobacco manufacturing center, producing cigarettes, smoking and chewing tobacco, and snuff. Winston-Salem also is one of the world's largest bright-leaf tobacco markets.

Hosiery—The city is the home of the world's largest circular-knit hosiery mill. Besides this great mill and a large plant processing nylon yarn, there are five other plants in the Winston-Salem vicinity that process or make hosiery.

Knit underwear—The largest manufacturer of knit underwear in the world is located in Winston-Salem.

Radios, radar, and other electronic equipment—A large electric company in two plants in Winston-Salem manufactures radar for the Government, radios, test equipment, and other electronic devices and components.

Furniture—Seventeen furniture plants, manufacturing all types of furniture, are located in the Winston-Salem vicinity.

Others—The city has other plants manufacturing a large variety of products including boxes and cartons, batteries, air-conditioning and industrial machinery, specialized chemical materials and medicines, awnings, bedding and mattresses, swimming suits, paint, toys, wagons and textiles. An ample complement of services joins these industries to give a well-balanced and diversified economy.

Retail and Wholesale Trade

The retail trading area covers several Piedmont counties and has a population of over 500,000. The wholesale trading area extends over a 150-mile radius embracing a population of 4,500,000. Winston-Salem leads North Carolina in the number of retail trade outlets (1940 Census). The effective buying income per family in Winston-Salem (1945) was \$4,361; the average of the Southeastern states was \$3,282, and that of the U. S., \$3,625.

Transportation

Aviation—Located 2.5 miles from the business district, Smith Reynolds Airport, one of the nation's newest and finest, has Class 5 airport facilities, regular service by large air lines.

Motor Vehicles—Automobiles registered for 1946 were 21,000; trucks, 3,500. Four coach companies given inter-city bus service; Winston-Salem is

Reynolds Memorial Auditorium

Municipal Iris Gardens, Winston-Salem

the Southern division headquarters for the Greyhound Lines. Four local bus lines and six taxicab companies handle urban traffic.

Highways—Eleven principal highways lead to and from Winston-Salem; the city is served by more hard-surfaced roads than any other city or center in North Carolina.

Railways—Three railways operate in Winston-Salem. The city generates such a great amount of freight that 33 "off-line" railways maintain Winston-Salem offices.

Banking Institutions

Five banking institutions include three commercial banks, one industrial bank, and the headquarters office of the Federal Home Loan Bank for the Southeastern area. One of the commercial banks serves as home office of the largest bank between Washington and Atlanta. In 1945, bank deposits totaled \$293,978,337.95; bank resources, \$330,815,009.43; bank clearings, \$892,135,000.

General Business Facts

Building permits in 1945 totaled \$1,517,305; postal receipts in 1945, \$704,460. Domestic electricity is supplied adequately for present and future needs. Although 200 miles from the nearest seaport, Winston-Salem is the nation's sixteenth port of entry. Forsyth County is the richest county per capita in North Carolina.

COMMUNITY LIFE

Winston-Salem was built by a home-loving, civic-minded people. Thus, through the years, great institutions have grown steadily, adding their influence and stability to the making of a wholesome, well-rounded community life. Winston-Salem is known for its many churches, good schools, and beautiful homes.

Churches and Religious Denominations

Often called the city of churches, Winston-Salem has approximately 150 churches representing some twenty denominations. Every section of the city is graced with lovely church buildings in attractive grounds, ranging from the old Home Moravian Church to the large, modern Baptist and Methodist structures called the finest in the South.

Schools and Colleges

Also called the city of good schools, Winston-Salem long ago recognized the need for adequate education. Today sixteen public elementary and four public high schools serve the city. The buildings are attractive, well-equipped, and set in spacious grounds providing adequate facilities.

Salem Academy is a day and boarding school for girls. There are four business colleges, a private elementary school, and kindergartens, music schools, and trade schools.

Three colleges located in the city are Salem College, one of the nation's oldest leading four-year colleges for women, founded in 1772; Bowman Gray School of Medicine of Wake Forest College, four-year medical school; and Winston-Salem Teachers College, co-educational Negro institution.

Wake Forest College, a 112-year-old, four-year college for men and women, is being moved to Winston-Salem. The college will be located in a new, modern plant housing 2,500 students.

City Government

Winston-Salem has the mayor-alderman type of city government. The city is incorporated, operating at present upon a charter codified and revised in 1927, with amendments made since. The city is divided into four wards, with two aldermen being elected biennially from each ward, making the governing body of the city a board of aldermen of eight plus the mayor.

Elections for the mayor and aldermen are held in May of odd years. All qualified electors of North Carolina who have lived in North Carolina for one year and in any voting precinct of Winston-Salem for four months are eligible to vote in city elections.

County Government

Three commissioners, elected for two-year terms, make up a board of commissioners who serve as the governing body of the Forsyth County government.

The county is divided into twelve townships and 32 precincts. All qualified electors of North Carolina who have lived in North Carolina for one year and in any voting precinct of Forsyth County for four months are eligible to vote in county elections.

Hospitals and Medical Facilities

Three first-class hospitals, City Memorial, Kate Bitting Reynolds Memorial, and North Carolina Baptist, have a total of 710 beds. The Forsyth County Tuberculosis Sanatorium is located nearby. There are three convalescent homes in the city, the City-County Health Clinic, and the full-time City and County Health Department with splendid records in disease-prevention.

Recreational Facilities

Twenty-six parks and playgrounds, with a total of 536 acres, have athletic fields, picnic areas, and special amusement features. The largest park is Reynolds, one of the South's finest municipal recreational centers,

built at a cost of nearly \$1,000,000. The city has an average of more than ten acres of playground for each public school.

Numerous amateur and "semi-pro" baseball, basketball and softball teams have regular schedules of games. Four eighteen-hole golf courses and a mild climate make golf a year-around sport. Nine swimming pools and eight motion-picture theatres are located in the city. The R. J. Reynolds Memorial Auditorium and the Bowman Gray Stadium are available for special events. The Y. M. C. A. and Y. W. C. A. provide recreational programs and the City Recreation Department conducts extensive supervised activities.

The \$1,000,000 Memorial Coliseum, soon to be erected, will seat 9,000 and will bring many unusual attractions to the city. The Coliseum will accommodate ice sports, large agricultural shows, and great conventions. Funds have already been raised to build the Coliseum.

Winston-Salem is a gateway to both mountain and seashore resorts. Some of the loveliest Carolina beaches lie 225 to 250 miles east and south, while cool mountain retreats are about sixty miles west. The famed Blue Ridge Parkway, leading to Shenandoah National Park and Great Smoky Mountains National Park, is some sixty miles northwest.

Cultural Opportunities

An annual concert series is under the auspices of the Civic Music Association. Lectures at Salem College are open to the public. A Little Theatre and numerous book, music and garden clubs function actively. The Piedmont Festival of Music and Art is held annually each summer.

Salem College Library has approximately 31,500 volumes, and the Carnegie Public Library approximately 28,000, with a branch library containing 7,500.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on Being Well Represented in Its Pages.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. **Insist on Being Well Represented in Its Pages**

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions checked against City Directory information will trim them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business firms. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten, if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on Being Well Represented in Its Pages

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on Being Well Represented in Its Pages

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on Being Well Represented in Its Pages.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."
